

- Biodegradable
- Eco-friendly
- Accelerator-free

PRO UltraFLEX Eco Green nitrile gloves offer an innovation in biodegradability. Designed to be ecofriendly and green to the environment without compromising maximum protection to the user. PRO UltraFLEX Eco Green biodegrade 10 x faster than standard nitrile in standard landfill conditions. The process of biodegradation will increase if the gloves are disposed of in optimum landfill conditions e.g anaerobic digestion facilities. Also accelerator-free, suitable for anyone sensitive to some of the chemicals contained in standard nitrile gloves.

Suitable for a wide range of applications. Latex-free, powder-free and accelerator-free nitrile gloves. AQL 1.5. Available in Small, Medium, Large and Extra Large.

It is recommended to check that the gloves are suitable for intended use. Put the gloves on clean dry hands. Inspect the gloves before using them. Storage Instructions: Store in dry conditions in the original package. Disposal: Please dispose of in an environmentally friendly manner. Usual methods of disposal are acceptable depending on containment, e.g. Asbestos where special methods should be applied.

Manufactured to **EN 420** and **EN 455**. In compliance with **Medical Device Directive 93/42/EEC** and **PPE Regulation (EU) 2016/425**. AQL 1.5.

Proven biodegradability through Biomethane Potential Testing (BMP)

Shelf life: 3 years (accelerated aging)
